

Putting Database References into RefWorks

Dissertations and Theses - Full Text (ProQuest)

1. Perform a search and mark the references you want to export.
2. You can choose to **export the items** by clicking on **Export** above your search results.
3. Select **Export directly to RefWorks**.
4. The export will open **RefWorks** if it is not already open and automatically import the references.
5. Your records should appear in the **Last Imported Folder**.
