

Putting Database References into RefWorks

Engineering Village: (INSPEC, Compendex, Engineering Index)

For Direct Export:

1. Perform a search and mark the references you want to export by clicking in the box beside the article.
2. In the area above the search results choose Download, this will bring up a Download Selected Records page.
3. Choose RefWorks direct import and click download.
4. If you are already logged in to RefWorks your records should appear in the **Last Imported Folder**. If you are not logged into Refworks you will be prompted to login. After logging in your records will automatically appear in the **Last Imported Folder**.
