

Putting Database References into RefWorks

JSTOR

For Direct Export:

1. Click on **Login** in the upper right of screen and then **Register** to create a MyJSTOR account if you do not already have one.
2. Click on **Login** in the upper right of screen to login to JSTOR if you already have a MyJSTOR account.
3. Conduct your search and save the citations you want to import by clicking in the box(es) to the left of desired citations.
4. Click **Saved Citation(s)** above search results.
5. Click **Saved Citation(s)** in the upper right of screen.
6. Click in the box(es) to the left of desired citations or **Select/unselect all**.
7. Click on **Export article citations**.
8. Choose **RefWorks** as your **Export Citations** option.
9. You will then be prompted to login to RefWorks if you haven't already.
10. Your citation(s) will automatically be imported into the **Last Imported Folder**.
You may view the records or move them to the folder of your choice.
